

ESCALATE v3 Note View Model

Gary Cattabriga | July 10, 2020

This allows 'anything' to have 0 or many notes as long as the entity has a primary key uuid

note: cascade on note delete: note, note_x

select * from vw_note
where ref_note_uuid = (select organization_uuid from vw_organization where full_name = 'Haverford College')

note_uuid	notetext	add_date	mod_date	actor_uuid	actor_description	note_x_uuid	ref_note_uuid
nt111	note 1	2020-01-01	2020-01-01	aa123	J Doe	nx111	oo1
nt345	note 2	2020-01-02	2020-01-01	aa124	J Smith	nx222	oo1
