

# ESCALATE v3 Note View Model (vw\_note)

Gary Cattabriga | July 13, 2020

Allows 'anything' to have 0 or many notes as long as the entity has a primary key uuid  
Notes are assumed to get 'assigned' to the current entity view (form) on insert

**note:** cascade on note delete (note, note\_x)

**select \* from vw\_note**  
**where ref\_note\_uuid = (select organization\_uuid from vw\_organization where full\_name = 'Haverford College')**

note_uuid	notetext	add_date	mod_date	actor_uuid	actor_description	note_x_uuid	ref_note_uuid
nt111	note 1	2020-01-01	2020-01-01	aa123	J Doe	nx111	oo1
nt345	note 2	2020-01-02	2020-01-02	aa124	J Smith	nx222	oo1
